Bachelor of Science in **Rehabilitative Sciences** **Pre-Medicine Track**

Ila Faye Miller School of Nursing and Health Professions

PROGRAM OVERVIEW

The Bachelor of Science (B.S.) in Rehabilitative Sciences program at the Ila Faye Miller School of Nursing and Health Professions at the University of the Incarnate Word is designed to be a pathway for students wishing to continue into professional graduate programs in athletic training, physical therapy, medical school, occupational therapy and physician assistant areas. The curriculum structure and content gives the graduate a strong foundation and credentials to embark on other careers in advanced healthcare settings or to enter the workforce as entry-level technicians in healthcare settings.

Students interested in pursuing a professional degree in other health profession fields may select a concentration they feel is the most appropriate to their professional goals, and an individualized advising plan may be necessary.

Pre-Medicine Track: This track is designed for students with the drive, ambition and academic preparation required to become a physician. The track prepares students for a career in medicine and/or graduate school.

ADMISSION REQUIREMENTS

The requirements for admission to the B.S. in Rehabilitative Sciences are the same as the requirements for admission to the University of the Incarnate Word.
