## Bachelor of Science in **Rehabilitative Sciences** **Pre-Physical Therapy Track**

Ila Faye Miller School of Nursing and Health Professions

### **PROGRAM OVERVIEW**

The Bachelor of Science (B.S.) in Rehabilitative Sciences program at the Ila Faye Miller School of Nursing and Health Professions at the University of the Incarnate Word is designed to be a pathway for students wishing to continue into professional graduate programs in athletic training, physical therapy, medical school, occupational therapy and physician assistant areas. The curriculum structure and content give the graduate a strong foundation and credentials to embark on other careers in advanced healthcare settings or to enter the workforce as entry-level technicians in healthcare settings.

Students interested in pursuing a professional degree in other health profession fields may select a concentration they feel is the most appropriate to their professional goals, and an individualized advising plan may be necessary.

**Pre-Physical Therapy Track:** This track is designed for students who are patient, organized and have the academic preparation required to become a physical therapist. The track prepares students to further their study in the medical field and/or pursue a career as a physical therapist.

### **ADMISSION REQUIREMENTS**

The requirements for admission to the B.S. in Rehabilitative Sciences are the same as the requirements for admission to the University of the Incarnate Word.
